

# New Cards Autumn '09

We have some great new cards for you to choose from as we start into a new season. We are also going to be clearing out some of our older designs over the next few months so keep an eye out for some unbelievable specials coming soon.

We are always out and about with the camera so if there is a particular shot you would like as a card then please drop us a line. We can also create cards focused around your business or organisation - they are affordable and a great way of staying in contact with your customers and associates.

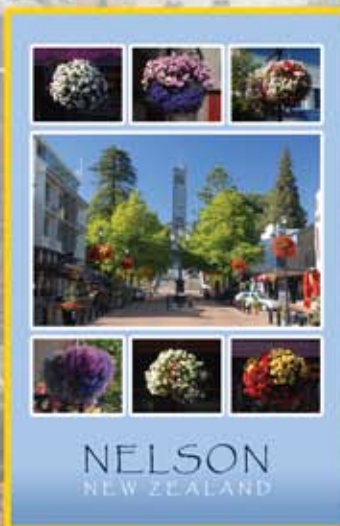

Best regards

Steve & Kylie Hussey
